

Vol. II of Index to Diary

Not.

In Vol. I of Index *offici.* most (or at least a great many) of the names &c. references were made to the Index of Illustrations - In this (Vol. II) there will only be given this note of general ref^{ce} to Vol. II of Index to Illustrations; to save much repetition in writing -

Again - It will only be necessary to state here that in this Vol. of Index to Diary (Vol. II) it is not considered necessary to refer the reader to Vol. I of Diary, *offici.* ^{in back instances} names of Places, Events &c &c. It should be understood generally that such reference is made - &c.

"Santiago", no ref^{ce} is made *offici.* "Santiago" in this Vol. to Vol. I, whereas there are a great many pages in Vol. I of the Diary, to which ref^{ce} is made in Vol. I of the Index, & any search for information re "Santiago" should therefore extend to both Volumes -

N.B. I have endeavored in all cases, especially in this Volume, to subdivide the various references; &c. &c.
