Dear Mr. Shaw:

In reply to your letter in regard to Dr. Samuel Andrew Jackson Evans, Jr. having attended the University of Virginia Medical School, I wish to state that our records do not show that either he or his father have ever attended the University of Virginia Medical School.

Could it have been any of the other medical schools in the State of Virginia at that time such as:

- Medical School of the Valley of Virginia, Winchester, Virginia
- Winchester Medical College, Winchester, Virginia
- Randolph Macon Medical College, Prince Edward Court House, Virginia
- University College of Medicine, Richmond, Virginia
- Medical College of Virginia, Richmond, Virginia

Only the latter one is existent as far as we know now.

I am sorry we cannot be of any assistance.

Sincerely yours,

(Mrs.) J. Russell Parks
Records Department

P.S.

There is an Andrew Jackson Evans (Mrs.) J. Russell Parks
