

WB. Please add to the following an
estimate for sheet Brass sufficient
to make a sleeve for smoke stack
together with necessary rivets:-

War College - Newport R.I May 16 - 1885
Lt L. C. Logan U.S.N.

Sir

Herewith please find Memo
of Steam Launch 62 as directed by your
Supplier - needed for 12 months (ordinary running),
Coal - cannot estimate, as it is so uncertain how
much time may be required at stopping - please
(with Fire) and the way of running -

Wood can probably be supplied at the cooper's
Shop and about the Island without extra expense
Kerosene Oil 1 Gall - Lard do 1 1/2 do - Cylinder do a
supply on hand - Spts Turpentine 2 Gall

Waste 25 lbs - (Oil, waste & turpentine, are estimated
for the Machinery & Boat)

Lampwicking 1 Ball - a supply of other packing on
hand -
